

7410b Series Spectrometer

Overview

- 7" High Definition colour touchscreen display
- Android operating system
- Internal memory for methods and results (10GB onboard storage)
- Multiple USB ports for data storage and printer connectivity
- Multi-language options including English, French, German, Spanish and Italian
- Standard warranty covers parts and labour for material and manufacturing defects. Temperature controlled cuvette shaft?

Touch screen?

:Section 3 - Theory and Practice of Spectroscopy Measurement. All models offer measurement modes for simple photometrics; concentration calculated using a single standard or a factor; quantitation with the ability to create a calibration curve using up to 20 standards; full spectrum scanning; multi-wavelength, where up to 4 wavelengths can be measured. Model 7415 uses a press to read xenon lamp to extend measurements into the UV spectrum, down to 198nm. Navigation is fast and intuitive on the large 7" high-definition color touchscreen display.

7410b Series Spectrometer

Hidden Analytical , Advanced Mass Spectrometry Solutions

Hidden Analytical designs & manufactures quadrupole mass spectrometers for gas analysis, electrochemistry, plasma, surface science & advanced research.

7410-B-MP

7410-B-MP features: The raceways of the inner and outer rings of a bearing have a contact angle (typically 15°, 25°, 30°, or 40°), which allows it to withstand radial loads and axial loads in one

ELEMENTAL ANALYSIS What makes the iHR Series Imaging Spectrometers

Hardware The iHR series of spectrometers stand out in the field of standard Czerny-Turner spectrometers. They are manufactured from a single solid casting to eliminate light leaks and provide

Stock No. 7403C/7404C /7410B USER MANUAL FIBT/MIBT Series

The FIBT/MIBT Series of Fiber Optic broadband CATV transmitters provides a robust

system for transferring both analog and digital CATV channels over single-mode optical fiber.

Spectrophotometer 7410,7415 and 7615

Touch to view the status of the spectrophotometer, check connections, fitted accessories, the serial number of the unit and the software version the instrument is using.

7410 BCBM

These single row angular contact ball bearings can accommodate radial and axial loads acting simultaneously, where the axial load acts in one direction only. They

High Resolution Spectrometer Manufacturer and

LightMachinery is a high-resolution spectrometer manufacturer and supplier. We are setting the new standard for range, resolution, and speed. Learn more now

Jenway 74 Series Spectrophotometers

There are two models in the 74 series range. Model 7410 covers the visible spectrum from 320 to 1000nm. Model 7415 uses a press to read xenon lamp to extend

741001 7410 Scanning Visible Spectrophotometer Jenway 741001

Navigation is fast and intuitive on the large 7" high-definition color touchscreen display. View scans and curves, zoom in and out, and select points right on the screen even when wearing gloves. The home

Cole-Parmer Jenway SP-500 Series , HCE

Introducing the NEW 74 Series Spectrophotometers. The 74 series spectrophotometers provide accurate and reliable results in various applications

Technical Specifications

Technical Specifications Range Accuracy Repeatability Spectral bandwidth
Transmittance Absorbance Accuracy Stray light Curve fit algorithms Measurement time

Stock No. 7403C/7404C /7410B USER MANUAL FIBT/MIBT Series

Note that the link CNR is usually specified for a received optical power of -1 dBm or more. Thus, an optical transmitter, with an output of +12 dBm, will provide optimal performance with up to 13 dB of

Compact Spectrometers

Recalibration Service for CCT Series Spectrometers Thorlabs recommends recalibrating these compact spectrometers every 12 months and offers a factory

ABB Bomem MB Series Fourier Transform Infrared

The ABB Bomem MB Series is a Fourier Transform Infrared (FTIR) spectrometer designed for high-resolution, accurate infrared spectral analysis. This laboratory

Jenway 741001B

Designed with your convenience in mind, the 74 series of spectrophotometers provides accurate and reliable results in various applications from teaching, to industrial applications, to routine sample

Cole-Parmer Essentials Spectrophotometers 7410B 83056-31 , WolfLabs

Spectrophotometer Cole-Parmer 7410B 320-1000nm wavelength, 5nm bandwidth, scanning, single beam, for general purpose, DNA/RNA, educational, life science and

industrial applications, single cell

Product: PinAAcle 900 Series AA Spectrometers

PinAAcle 900 Series AA Spectrometers Engineered with an array of exciting technological advances, the PinAAcle(TM) 900 atomic absorption (AA) series offers

7410B FAG o ABF Store

7410B FAG available at ABF.store ? Same-day shipment ? 13.000.000 bearings and electric motors ? Worldwide delivery ? Customer Service in 8 languages

7410B.MP.UO FAG

The 7410B.MP.UO FAG is a universal angular contact ball bearing. Universal angular contact ball bearings with the same deviation in inner ring bore and outer diameter can be combined

7410 visible and 7415/7615 UV-Visible scanning

All models offer measurement modes for simple photometrics; concentration calculated using a single standard or a factor; quantitation with the ability to
