

8-port Huawei PoE switch

Overview

Huawei S310S-8P4JX is a manageable L3 switch equipped with 8x 1Gbit Ethernet with PoE+ support, 2x 2. It supports all common L2 functions and additionally offers static routing and a DHCPv4 server. A 10/100/1000BASE-T Ethernet electrical port sends and receives service data at 10/100/1000 Mbit/s. Huawei's CloudEngine campus family pushes Power over Ethernet to the limit: from 15 W PoE and 30 W PoE+ all the way to 60 W PoE++ (IEEE 802.3bt). CloudEngine S5755-S series switches are Huawei's next-generation cost-effective access switches designed for the Wi-Fi 6/7 era. Based on Huawei's unified software platform and powered by high-performance programmable chips, the switches support advanced features such as application identification. The Huawei 8 Port PoE Switch is a reliable and efficient networking solution designed for small to medium-sized businesses and home offices that require Power over Ethernet (PoE) capabilities.
