

ABB a Finnish manufacturer of electrical distribution boxes

Overview

ABB offers a total ev charging solution from compact, high quality AC wall boxes, reliable DC fast charging stations with robust connectivity, to innovative on-demand electric bus charging systems, we deploy infrastructure that meet the needs of the next generation of. ABB Drives is a global technology leader serving industries, infrastructure and machine builders with world-class drives, drive systems and packages. We help our customers, partners and equipment manufacturers to improve energy efficiency, asset reliability, productivity, safety and performance. By connecting our engineering and digitalization expertise, we help industries run at high performance, while becoming more efficient. Our mission is to meet customer's expectations by providing satisfaction through cost, quality, service, delivery and continuous improvement. * For different colours and thickness, please refer to the ABB website for details. Corporate and Other had approximately 9,300 employees on December 31, 2025, mainly pertaining to the Robotics business (classified as discontinued operations in the Consolidated Financial Statements) as well as to the E-mobility division and our other non-core businesses.

ABB a Finnish manufacturer of electrical distribution boxes

Flush-mounted junction boxes

ABB's Low Voltage Products offering encompasses a wide range of electrical products designed to ensure the safe and efficient distribution and management

What is an Electrical Distribution Box? A

What is an Electrical Distribution Box? At its core, an electrical distribution box (or distribution board) is a metal or plastic enclosure that houses

ABB factsheet

Overall #1-2 Medium Voltage electrical components and digital devices, medium voltage switchgear, energy systems and digital systems ~20% through distributors; ~80% engineered-to-order products;

ABB Low voltage distribution system

ABB Low voltage distribution system Safe and reliable electrical distribution ABB Low voltage distribution system offers safe and reliable distribution based on InLine

Power Grid , Electrification , ABB

ABB's Low Voltage Products offering encompasses a wide range of electrical products designed to ensure the safe and efficient distribution and management of electrical power in various applications.

Electrical boxes

ABB provides the highest-quality, most versatile, innovative and comprehensive line of metallic, non-metallic, indoor, outdoor, weatherproof, and floor boxes from the Steel City®, Red Dot®, Carlon®

ABB in Finland , [abb /fi](#)

ABB offers a total ev charging solution from compact, high quality AC wall boxes, reliable DC fast charging stations with robust connectivity, to

ABB Distribution Solutions

ABB Distribution Solutions Facts & Figures, smart and sustainable technologies for the distribution of electricity. With ABB Ability™ enabled digital solutions at its core, our

extensive portfolio includes

Understanding Distribution Boxes:A Comprehensive Guide

Understanding its significance, this article covers what a distribution box is, how it functions, its structure, the various types available, and how it

ABB products and services A

ABB's Low Voltage Products offering encompasses a wide range of electrical products designed to ensure the safe and efficient distribution and management of electrical power in various applications.

Kabeldon Low Voltage Distribution System

ABB's Low Voltage Products offering encompasses a wide range of electrical products designed to ensure the safe and efficient distribution and management

ABB Group , Helping industries outrun - leaner and cleaner , ABB

Global technology leader in electrification and automation. ABB helps industries run at high performance, while becoming more efficient, productive and sustainable.

Azipod® electric propulsion Marine & Ports , Systems

Azipod® propulsion is a gearless steerable propulsion system where the electric drive motor is housed within a pod outside the ship hull. Azipod® units can rotate

History of ABB , ABB

In 1988, ABB is formed from the merger of ASEA of Sweden and BBC of Switzerland. The new company, headquartered in Zurich, Switzerland, has annual revenues of \$17 billion and 160,000
