

Bahamas Lithium-ion Battery Storage Cabinet 200kW Solution

Overview

BSLBATT ESS-GRID Cabinet Series is an industrial and commercial energy storage system available in capacities of 200kWh, 215kWh, 225kWh, and 245kWh. It offers peak shaving, energy backup, demand response, and increased solar ownership capabilities. It integrates advanced components for maximum performance and safety, including: EMS (Energy Management System): The intelligent EMS monitors and optimizes energy flow, balancing supply. With no inverter or PCS bundled, it serves as a core battery component, ready for seamless incorporation into. Feature highlights: The 200kW Optical Storage System is an advanced energy storage solution featuring Lithium Iron Phosphate (LiFePO₄) batteries, a long cycle life of 4000 times, and intelligent air cooling for temperature regulation.
