

Belt and Road Global Energy Internet

Overview

The Belt and Road Initiative (BRI) is particularly conducive to global energy development and transformation, as it provides a rare and valuable platform for high-quality global energy development while offering highly effective avenues for countries worldwide, especially. On September 9, Vice President Han Zheng attended the 2025 Global Energy Internet Conference in Beijing and delivered a speech. Global trade and investment volatility will potentially spur further investment for supply chain resilience and alternative export markets for Chinese companies. The Belt and Road Initiative (BRI), which began 12 years ago, has emerged as a significant milestone in the landscape of international development. In 2013, during the visit to Central and Southeastern Asian countries, Chinese President Xi Jinping successively proposed to jointly build the Silk Road Economic Belt and the 21st Century Maritime Silk Road, collectively as the Belt and Road Initiative (BRI).

Belt and Road Global Energy Internet
