

# **Bridge frame manufacturing in Spain**

## Overview

---

In Spain, several manufacturers excel in producing high-quality steel bridges, each contributing to the industry with unique capabilities and innovations. Leveraging cutting-edge technologies and processes, we deliver comprehensive services across all project phases, from pre-design. With a focus on innovation and advanced techniques, they have successfully completed over 1,000 projects, optimizing bridge construction processes to reduce costs. Horta Coslada is a leading company in design, fabrication, engineering and erection of structural steel. The steel sector in Spain has seen significant growth in 2024, with a steady increase in production volumes, reflecting the strong demand for steel in.
