19-inch rack

Overview Overview and history Equipment mounting Cooling Specifications Related standards Gallery

A 19-inch rack is a standardized frame or enclosure for mounting multiple electronic equipment modules. Each module has a front panel that is 19 inches (482.6 mm) wide. The 19 inch dimension includes the edges or ears that protrude from each side of the equipment, allowing the module to be fastened to the rack frame with screws or bolts. Common uses include computers, servers, telecommunication equipment and networking hardware.
