## **(PDF) Optical Splitters: Design and Applications**

---

We will present the latest achievements in the design of two mostly used optical splitters (MMI and Y-branch) and discuss their advantages and

## **Fiber Optic Network expansion using Optical Splitters**

---

Setting up a network with optical splitters is straightforward and user-friendly. Since these devices are passive, they do not require additional power sources, making

## **Microsoft Word**

---

PON APPLICATION Optical splitters are often used in Passive Optical Networking (PON) applications which use 1:N PLC splitters for a point to multipoint configuration over a single fiber. These splitters
