

Can fiber optic routers be set up wirelessly

Overview

As internet speeds continue to evolve, fiber optic broadband is becoming the gold standard for ultra-fast and reliable internet connections. To connect your fiber optic internet to your wireless router, you will need to follow a few simple steps. Check Your Fiber Optic Equipment Before you start, make sure you have the necessary equipment: Fiber Optic Modem (ONT - Optical Network Terminal):. This can be done in two ways: Underground Installation - Fiber cables are placed in conduits underground, offering better protection from weather and physical damage.
