

Core switch tripping is not working

Overview

The first step is to check which appliances are connected to the circuit that keeps tripping. Moving Firewall, no big issue and we connected it up to the 9000 and it reconnected with the other Firewall and they connect to each other, we move the active firewalls from the firewall connected to the N5K switch to the firewall connected N9K switch. 12-29-2013 05:00 AM Thank you Leo Solano & Leo Laohoo the problem was with STP when i shutdown the port-channel of the uplinks to the coreswitch 12-30-2013 04:31 PM. It could be a sign of a bigger electrical problem that needs your immediate attention. My smart switch is tripping my break box when is turn on by hand or by Alexa order.
