

Data Center Energy Pricing

Data Center Energy Pricing

Watch EQT CEO Toby Rice on Energy Prices, LNG and Data Centers

EQT CEO Toby Rice discusses energy prices, LNG and the growing role of data centers in shaping energy demand with Bloomberg's Julie Fine at CERAWEEK in Houston.

How data centers may lead to higher electricity bills

In an interview with Harvard Law Today, Peskoe explains the ways in which data centers sometimes obscure their effect on utility prices, and why state

Rising energy prices put AI and data centers in the

As tech companies tout their plans for massive new data centers, consumers are increasingly worried the AI-driven gold rush will ultimately drive up

AI power dash transforms clean energy offtake market

The growing influence of data center demand is increasing the price and size requirements of U.S. corporate clean power contracts and requiring

Gartner Business Insights, Strategies & Trends For

Gain strategic business insights on cross-functional topics, and learn how to apply them to your function and role to drive stronger performance and innovation.

Alternative Fuels Data Center: Maps and Data

Maps and Data - Average Annual Retail Fuel Price of Gasoline Find maps and charts showing transportation data and trends related to alternative fuels and vehicles.

Maine set to become first state with data center ban

More than a dozen other states are considering similar bans as fears around centers and high energy prices grow.

CBRE's 2026 Data Center Outlook: Demand Surges as

The U.S. data center market enters 2026 with record demand driven by AI, historic low vacancy, and rising pricing; but with growing constraints around power

How will energy prices affect data center costs in 2024

From the increased use of renewable energy to create green data centers to the evolving geopolitical dynamics influencing fossil fuel markets, there

OpenAI Halts Stargate UK Data Centre Project Over Energy Costs

OpenAI has paused its Stargate UK data centre investment, citing sky-high British energy prices and copyright uncertainty, in a blow to Labour's AI superpower ambitions.

Microsoft contracts 30,000 GPUs from Nscale at Norway data center

Nscale's operating data center in Glomfjord, Norway. - Arkon Energy , Nscale The GPUs will be housed at a 230MW data center in Kvandal, outside Narvik, northern Norway. The site is

Microsoft says energy prices wont rise near data centers

Microsoft is asking Wisconsin's Public Service Commission to raise the electric rate the company pays for a data center in the state.

Rising Energy Costs From Data Centers: Who Pays the

Rising energy costs from AI data centers could hit your bill. Learn why demand is surging & how to save by comparing electricity rates today.

Utility Provider Cutting Electricity for 50k Lake Tahoe Residents to

Beginning sometime after May 2027, NV Energy will divert Lake Tahoe's energy supply to AI data centers.

Confronting and addressing rising energy bills linked to

Policymakers and public utility commissions need to better measure and address the impacts of data centers on residents. There are two main

Datacenters and Electricity Costs By the Numbers

While there is a push by some politicians of both parties to singularly blame, and in some cases scapegoat, datacenters for rising electricity prices,

Energy solutions for data center: Comparative analysis of levelized

This study addresses a crucial gap by comparing the Levelized Cost of Electricity (LCOE) for wind, solar, solar plus battery storage, nuclear, and natural gas technologies tailored explicitly for

Economic costs of data-centers?

Energy costs matter. Energy availability matters for time-to-first compute. And fiscal

regime is also surprisingly important. Reliability is also crucial

Confronting and addressing rising energy bills linked to

As Northern Virginia and other regions compete to host increasingly energy-demanding data centers, affordability impacts on residents are mounting.

Moody's Forecasts \$3 Trillion Data Center Investment

Moody's: \$3 Trillion Data Center Investment by 2030 Amid Power Challenges We spoke with Moody's analysts about their \$3 trillion forecast for

Covering electricity price increases from our data centers

Procure new power and protect consumers from price increases. We will work to bring net-new power generation online to match our data centers'

FirstEnergy ordered to create data center pricing rules

COLUMBUS, Ohio -- Ohio regulators ordered FirstEnergy to create new rules for its data center customers as concerns grow over who will pay for billions of dollars in electric grid upgrades from

Who pays for AI's electricity? Data centers spark debate over rising

Big technology companies are facing pushback over their data centers, which have been blamed for rising energy prices in the U.S.

Data Center Power Demands Are Contributing to Higher Energy Bills

In states with a high concentration of data centers like Virginia, electricity prices have increased by up to 267% over the last five years. Such spikes are due to utilities needing to quickly
