

# **Dimensional parameters of corrugated ducts for monitoring**

## Overview

---

EN 61386 stipulates the dimensions of corrugated pipes: measurements, internal and external diameters. Cable manufacturers, on the other hand, define the length of coils and bars and their packaging. Factory pre-installed Bull-Line™ Pull Tape with EVEN-LOAD™, ensures extra slack at any access point throughout the reel. Comes standard on 2"; is available for 1"-1 1/2" CONDUIT MARKINGS Permanent marking along conduit includes: material. The semi-rigid hot-dipped galvanized metal duct is strong and durable for casting into concrete and is easily tied into position adjacent to reinforcing steel.

## MOMENT Corrugated Duct

---

Corrugated Duct is used as a duct former for a variety of precast and cast-in-situ concrete work. The semi-rigid hot-dipped galvanized metal duct is strong and durable for casting into concrete and is

## **Prestressed Corrugated Metal Ducts ?Installation Guide**

---

Prestressed corrugated metal ducts are fabricated from galvanized/non-galvanized steel strips through spiral folding and lock-seam forming. Key benefits include: ?

### **STANDARD CORRUGATED**

---

Factory pre-installed Bull-Line™ Pull Tape with EVEN-LOAD™, ensures extra slack at any access point throughout the reel. Available 500 lb-6,000 lb tensile strength or locatable. Comes standard on
