

Dimensions of Outdoor Server Racks for Campus Networks

Overview

Common server rack sizes are 19-inch width, heights like 42U or 48U, and depths from ~24" to 48". The right rack dimensions ensure optimal equipment compatibility, airflow efficiency, cable management, and long-term scalability. These are manufactured from galvanized steel, aluminum or stainless steel material, making them the perfect layer of security. The 7U Outdoor Network Cabinet offers superior protection thanks to its weatherproof features.
