

Do fiber optic pigtails come in different diameters

Overview

5/125 μm are both available; orange (OM1/OM2), OM3 (aqua), and OM4 (magenta) colors are. 5m to 2m—that has a factory-terminated connector on one end and bare fiber on the other end. For fiber optic pigtails, unsheathed cables with a diameter of 90 μm are generally used. Get the wrong connector type, the wrong polish, or skip proper fusion splicing technique—and you're looking at elevated signal loss, increased back reflection, and a. Fiber Optic Pigtails are mainly categorized into single-core, dual-core, 4-core bundled pigtails, 12-core bundled Fiber Optic Pigtails, 12-color bundled.
