

Electrical cable tray wire stripping

Overview

This guide covers everything a licensed electrician needs to know, from selecting the right tools and stripping standard THHN/THWN wire to advanced techniques for MC cable armor removal and terminating aluminum conductors, all while adhering to NEC 110. Electricians will often use side cutters for all of the jobs you will see demonstrated below. At this stage you won't have the ability or touch to do this and the slightest nick in the insulation of a core wire can be lethal. Need to strip wire for your next DIY project?

In this video, Family Handyman walks you through the proper way to strip electrical wire safely and efficiently. The procedure is the same for almost all cables: cut and strip the sheath, fit the core with a ferrule or connect it to the circuit using a clamp - done! Provided you have the right tools, stripping and stripping is not.
