

Features of the Burkina Faso Micro-Module Data Center

Overview

As reported by Developing Telecoms and revealed by the Ministry of Digital Transition, Posts and Electronic Communications via Facebook, the two data centers have a total storage capacity of 3PB, 105. Burkina Faso has officially inaugurated two new modular government data centers in Ouagadougou, marking a major advance in the country's digital sovereignty strategy. Commissioned by Prime Minister Rimtalba Jean Emmanuel Ouédraogo, the facilities form a central pillar of the "zero data abroad". The new data centres form part of Burkina Faso's 12 flagship digital transformation projects, with particular emphasis on the "zero external data" initiative, which seeks to ensure that sensitive national data is hosted and managed entirely within Burkinabe territory.
