

# Fiber Optic Trunk Cable Classification Prices

## Overview

---

MPO pre-terminated fiber optic cable (Multi-fiber Push On), as an advanced cabling solution integrating high-density and multi-fiber connectivity, has developed more refined classifications to meet the requirements of different application scenarios. In this guide, we will break down the manufacturing costs and introduce a "Tiered Pricing Strategy" to help you choose the right cable for your budget—whether you need the "Rolls-Royce" (US Conec) or the "Workhorse" (Standard MPO). 6T Ethernet standards in 2026, the pre-terminated MPO trunk cable remains the critical physical backbone of the optical network. These multi-fiber assemblies form the central nervous system of structured cabling. Buyers typically pay for fiber optic cable by length, fiber type, and installation complexity.
