

Fiber optic cable retainer

Overview

Fibre Clips are used in fibre optic installations to secure and organise fibre optic cables, avoiding unwanted movements and protecting them from damage and stress. It is designed to hold 16 cables in place in 3 different clips of 4, 6 and 6 components, which can be separated. The CMS011 Zip-Tie-Style Cable Ties (supplied in bags of 100) are releasable and are typically. Universal lever type retainer for 5mm fiber optic drop cables ideal for long distance installations.
