

# **How much does a high-voltage distribution box cost in the UK**

## Overview

---

The average cost of installing a new distribution board is typically between £300 and £500. Here are some of the most common types and how they differ in terms of functionality and price: Purpose: Houses low- and medium-voltage switchgear to distribute and control electrical power. Understanding distribution box cost involves examining the comprehensive investment required for electrical distribution systems that serve as crucial infrastructure components in residential, commercial, and industrial settings. At NKD Group, we design and manufacture bespoke High Voltage (HV) and Low Voltage (LV) Link Boxes tailored to your project needs. From initial consultation to full design and build, we offer a complete in-house solution that ensures quality, reliability, and performance. You might find a small plastic unit for the price of a fancy dinner, or an industrial-grade stainless steel beast that costs as much as a compact car.
