

How much does a smart power distribution cabinet cost in Southern Europe

Overview

Basic PDUs start at €100, but smart PDUs with energy monitoring (€400-€900) help identify vampire loads draining 5-8% of system power. EU-compliant locking systems (EN 1303 certified) add €200-€600, while seismic-rated cabinets for Mediterranean regions cost 25% more. Industry data shows that smart PDUs can prevent up to 80% of power-related outages and improve energy efficiency by as much as 20%. The table below highlights key performance metrics: ESTEL stands out in the telecom sector for its leadership and innovation: Lifecycle cost analysis plays a critical. An intelligent PDU, or power distribution unit, is a critical tool for modern power management. Unlike traditional units, it offers advanced features like remote power cycling, enabling operators to reboot servers without being on-site.
