

Huawei Integrated Optical Splitter

Overview

The Huawei OSPL43201 is a highly efficient optical splitter designed for even splitting of optical signals at a 1:4 ratio. Featuring an SC/APC termination with a compact size of 60x7x4mm, this product is an excellent choice for high-performance fiber optic network deployment. □ The input pigtail can be easily distinguished from the output pigtail due to the color difference. Huawei includes the HUAWEI eKit prefabricated SC/UPC connectors ODN SPL2605-2:8 in its MiniFTTO optical access portfolio. The SPL2605 can be independently integrated into an FDT or FAT, or encapsulated in a tray-mounted splitter SPL9201 for optical splitting in an ODF and FDT.
