

# **Installation price of hole puncher and distribution box**

## Overview

---

A typical home replacement for a 100-125A indoor panel runs about \$1,200-\$2,500 in parts and labor; a 200A outdoor upgrade with new meter socket can reach \$3,000-\$6,000. Assumptions: standard conduit routing, existing wiring reachable within 10-30 feet, and a single dwelling. Milwaukee Tool's hydraulic hole punch tools are engineered to provide electricians and general contractors with a high degree of confidence and certainty every time. Also known as chassis and panel punches, they cut through sheet metal and have an automatic centering design for accurate alignment. To help you find the best electrical knockout punch on the market - we've reviewed the Top 5 Electrical Knockout Sets of 2026. Buy with the confidence that you're spending your money on a high-quality knockout set.
