

Installation price of plastic distribution boxes

Overview

Typical project ranges for a single distribution box install span from \$500 to \$3,000, with most residential jobs landing around \$1,000 to \$1,800. The price of plastic distribution box represents an exceptional value proposition in the electrical infrastructure market, combining affordability with superior functionality. These essential electrical components serve as protective enclosures for circuit breakers, fuses, and other electrical. Metal distribution boxes, made from galvanized steel, stainless steel, or aluminum alloys, offer superior mechanical strength, fire resistance, thermal stability, excellent heat dissipation, grounding capability, and electromagnetic interference shielding. Key cost drivers include panel amperage, indoor vs outdoor location, wiring length, and whether a full panel upgrade or rerouting is needed.
