

Integrated power distribution box model dbx

Overview

The BD12 from dbx is a high performance, active direct box housed in a industrial strength enclosure, and includes custom dbx mu-metal-shielded audio transformers, high-quality Neutrik connectors, and low-noise circuitry. One look at our new dB10 Passive and dB12 Active direct boxes will tell you that these are clearly different. Robust active DI-box equipped with all the necessary features for a quality and silent operation of connected instruments and audio devices with unbalanced/Hi-Z outputs. The distribution box (DB box) helps safely and efficiently distribute electrical power. We also highlight how reliable manufacturers like NUOMAK support stable, compliant, and cost-effective power distribution.
