## Overview

---

They consist of robust enclosures, busbars for current distribution, and essential components like circuit breakers and surge protective devices. Built-in accessories enhance safety, enable monitoring, and support system scalability with features such as smart sensors and IoT. Circuit Breakers or Fuses: These safety devices automatically stop the flow of electricity during faults or overloads. Inside, the power is split into multiple, smaller circuits that run to different areas—like the kitchen, bedrooms, lighting, and air conditioning.
