Investment Costs of Distribution Box Factory

Overview

Opening a new distribution center (DC) involves significant capital, with initial investments typically ranging from \$2 million to \$20 million or more. This broad spectrum depends heavily on the scale of operations, the chosen location, and the degree of automation implemented. What is Corrugated Box?

The corrugated box industry is powered by its versatility, strength, and sustainability, rendering it crucial for shipping, storage, and retail packaging. Corrugated boxes are durable shipping containers made from corrugated cardboard—a material created by sandwiching a fluted inner layer between two flat linerboards.
