

# Is a wiring duct a cable tray

## Overview

---

Wiring ducts are rigid trays typically used as raceways for cables and wires within electrical enclosures. Understanding the differences between cable trays and cable ducts can help you choose the right solution for your project, ensuring efficiency, safety, and longevity in your cable management. If you're working on an electrical project, you've likely asked yourself this: Should I use a cable duct or a cable tray?

It's a common question. People worry about which system is safer, more cost-effective, and easier to install.

## Is a wiring duct a cable tray
