

Kenya Galvanized Cable Trays

Overview

Installation time reduced • Total flexibility • Quick and easy to install • Accessories have integral couplings to reduce cost and save time • All accessories have integral fish plates

Steel perforated cable trays made from galvanized steel which is perforated and edge rolled. The ends of the tray are reduced allowing the easy joining of two adjacent ends without the need for couplets or plates. The join can then be simply secured using a standard M6 nut and bolt (not supplied). A cable tie, also known as a tie-wrap, is a type of fastener, designed for bunching electric cables or wires and to organize cables and wires, but with a wide variety of other applications.
