## Overview

---

Fusion splicers, also sometimes called fibre splicers, fusion fibre splicers, or fiber optic splicing machines, are devices used to splice together the ends of two optical fibres. We distribute fiber optic splicing equipment from Corning, AFL, Sumitomo, 3M, 3SAE, Fitel and more. Fiber optic splicing plays a vital role in modern communication networks by enabling seamless connections between fiber optic cables. This technique ensures high-performance data transmission and is essential in extending cable runs, repairing broken links, or establishing new network paths in data. Unlike copper cabling, optical fiber requires precise handling, clean end faces, and accurate measurement to avoid signal loss and performance degradation.
