

Mineral Exploration Spectrometer Manufacturer

Mineral Exploration Spectrometer Manufacturer

Mineralogy for Geology, Mineral Exploration & Mining

Field portable NIR spectrometers are invaluable tools for mineral identification and analysis in mining exploration. These spectrometers are designed to be compact

Geology , Mining Spectrometers

Spectral Evolution's field portable, battery-operated oreXpress(TM), oreXplorer(TM) and oreXpert(TM) ultra-high resolution UV-Vis-NIR spectrometers are designed for

Portable Mineral Testers for Mining and Exploration

X-Ray Fluorescence (XRF)-based portable mineral testers, such as TITAN, provide immediate, on-site elemental analysis of minerals to support exploration,

TerraSpec Spectrometers

Our team is experienced in the use of NIR spectrometry for rapid mineral characterization, helping clients obtain detailed, reliable data for efficient

Mineral Analysis , Portable Analytical Solutions

Fast, accurate mineral analysis for exploration, mining, and research. Discover our portable solutions designed for field use. Contact us to learn more!

ASD Terraspec , Portable & Handheld Mineral NIR

The ASD TerraSpec range provide portable, rapid and non-destructive analysis of minerals in the lab or the field.

TerraSpec 4 Hi-Res Mineral Spectrometer

Recognized as the de facto technology for mineralogical analysis, the rugged portable TerraSpec mineral spectrometers are trusted by top geologists for performing fast, precise geologic exploration.

Mining & Geochem Analysis , SPECTRO

SPECTRO's advanced analyzers are unmatched in the mining and geochemistry industries, offering precise elemental analysis for exploration and production.

TerraSpec 4 Hi-Res Spectrometer from Malvern Panalytical

The ASD TerraSpec 4 Hi-Res mineral analyzer brings new levels of efficacy to mineral exploration technology. This state-of-the-art mineral spectrometer offers

Mineral Analysis Spectrometers , Precision, Efficiency

A comprehensive guide to mineral analysis spectrometers, detailing their use in geophysics for determining mineral compositions through

ore-series , SphereOptics

They can identify different mineral phases, create mineral alteration maps and more accurately identify mineral pathfinders for vectoring to ore deposits. Spectral

Field Portable Spectrometers for Real time Mineral Analysis

About SPECTRAL EVOLUTION Established in 2004, SPECTRAL EVOLUTION is a leading manufacturer of laboratory and handheld portable spectrometers, spectroradiometers and

NIK System

Now the upgraded TerraSpec 4 Hi-Res mineral analyzer brings new levels of efficacy to mineral exploration technology. This state-of-the-art mineral spectrometer

ASD TerraSpec® 4 Hi-Res Mineral Spectrometer

The rugged portable TerraSpec mineral spectrometers, recognized as the de facto technology for mineralogical analysis, are trusted by key geologists for performing

Geospectra , Field Instruments for Mining & Exploration

Geospectra provides field-ready XRF, XRD, UV-Vis-NIR and gamma spectrometry tools for mining and exploration, for sale and rental, based in Canada.

Mining spectrometer

Overview For mining exploration geologists, these improvements translate into faster data capture at exploration targets and drilling sites. The improved data quality

ASD TerraSpec range

For exploration geologists, these upgrades mean faster data capture at exploration sites. The ASD TerraSpec 4 Hi-Res delivers improved data quality, enabling

HySpex , Industry-Leading Hyperspectral Solutions

At HySpex, we provide advanced hyperspectral imaging solutions for the most demanding environments -- from industrial production lines to scientific research

Applications Of Terras XRF Analyzer In The Mineral Field

4. Mineral exploration and geological survey In the mining and geological exploration fields, XRF handheld spectrometers are used to quickly analyze the elemental content in rock, ore and soil

XRF Mineral Analyzer

XRF Analyzer for Mining Exploration X-Ray Fluorescence Guns XRF Analyzer Provides On-Site Analysis of Ore Samples With Minimal Sample Preparation,

Spectral Evolution Spectrometers and

Spectral Evolution's field portable NIR spectrometers are designed to resist the most demanding conditions of the mining environment. Combined with the EZ-ID(TM)
