

Mobile router fiber optic connection is zero

Overview

Power cycling or restarting your ONT (Optical Network Terminal) often resolves simple troubleshooting internet issues. Use the table below to see expert-recommended first steps for fiber troubleshooting. This morning my ISP upgraded my Internet connection from a standard coaxial cable and Cisco modem to a fiber optic cable and Hitron modem Model Name NOVA-2004. First, check the basics—look for power issues on your optical network terminal and inspect all cables for visible damage. Many fiber internet problems come from dirty connectors or loose plugs, not major faults.

Mobile router fiber optic connection is zero
