

North Africa Optical Cable Construction Unit

Overview

This list was initially developed as part of AfTerFibre, a project to map terrestrial fibre optic cable projects in Africa. The project was sponsored by Google Africa and, on completion, will be hosted by the UbuntuNet Alliance. All information gathered by the project will be publicly available under an open license.

North Africa Optical Cable Construction Unit

Fibre Optic Networks Reshaping Africa's Digital Future

Challenges remain -- from regulatory bottlenecks, cable vandalism, and high user costs -- but the momentum is strong. Fibre optic networks are not

East Africa: Undersea Fibre-Optic Cable Nears the Coast

The wait for the landing of an undersea fibre-optic cable to boost communication in the region could be coming to fruition as indications point that one arm is almost at the East African coast.

Nokia selected for Medusa Submarine Cable System to

The Medusa submarine cable system is a new transformative, open-access infrastructure connecting North Africa and Europe with high-capacity fiber links.

Nokia to Power Medusa Subsea Cable Connecting

Covering the Atlantic coast, the Mediterranean Sea and the Red Sea, this next generation infrastructure will create a high capacity digital corridor

List of terrestrial fibre optic cable projects in Africa

Terrestrial fibre optic cable projects in Africa comprise land-based optical fiber networks deployed to establish high-capacity backbone infrastructure for telecommunications,

enabling the distribution of

African Gabon project buried optical cable procurement

In this project, GL Optical Cable Products have won the full recognition of customers with good technical indicators, reliable product quality and flexible

Maroc Telecom invests 150 million euros in West African subsea fibre

Itissalat Al Maghrib (Maroc Telecom) has invested 150 million euros in the construction of a new submarine fibre optic cable. The West Africa cable infrastructure connects the company's subsidiaries

Submarine Cable Map 2025

Submarine Cable Map 2025 This new edition depicts 597 cable systems and 1,712 landings that are currently active or under construction. Explore the map

Decko

Decko provides a full spectrum of contract services to communications companies from engineering and construction to cable installation and splicing and system

Announcing the Completion of the Core 2Africa System: Building the

This is double the capacity of older systems. It is the first 16-fiber-pair subsea cable to fully connect Africa. We incorporated undersea optical wavelength switching, enabling

flexible

Coleman Opens Billion-Dollar Fibre Optic Cable Factory, Targets African

Coleman Opens Billion-Dollar Fibre Optic Cable Factory, Targets African Market An oil and gasservice company, Coleman Technical Industries Limited (CTIL) on Friday opened its multi-billion-dollar fibre

New Mediterranean cable set to bring 5G internet to

North Africa has long been a backwater in the Mediterranean submarine cable sector, with no single cable providing internet connection to all of the

This major investment will complete our existing submarine and pan-African terrestrial infrastructures to provide access to international connectivity in a

Government Welcomes R160 Million Investment in Optical Fibre Cable

The South African Government has welcomed a major investment in the country's digital

infrastructure, with the announcement of a R160 million expansion of the Yangtze Optics Africa Cable

YOA Cable launches biggest optical fibre plant in Africa

Fibre cable maker Yangtze Optics Africa Cable has opened a R160 million facility -- the biggest optical fibre cable manufacturing plant on the continent -- at the Dube

West Africa Cable System

Cable laying ship Île de Bréhat connecting West African Cable System fibre at Yzerfontein in South Africa, 24 April 2011, returning 28 April for inspection The West Africa Cable System (WACS) is a

EUR100 The EurAfrica Gateway Cable, connecting the EU with milli

The Global Gateway Africa-Europe Investment Package will scale up regional connectivity and enable the deployment of digital services, digital businesses and innovation by supporting construction of

Africa's Optical Fiber Cables Market Report 2026

Africa's optical fiber cables market is characterized by concentrated consumption and production, with significant intra-regional trade flows. Egypt is the dominant consumer and producer

Nokia establishes subsea cable system across Europe

The Medusa Submarine Cable System, a project owned by AFR-IX Telecom, is a significant step toward closing the digital divide between Europe

chapter Fibre

AR) to Congo. This component of the Central Africa Backbone (CAB) project saw the completion of 935km of terrestrial and sub-river fibre-optic network, constituting the first sections of the national

ASN commences Africa-1 subsea cable construction

Further to the supply contract coming into force, the Africa-1 consortium - currently formed of Etisalat, G42, Mobily, Pakistan Telecommunication Company and Telecom Egypt (with

OPGW Optical Fiber Composite Ground Wire in African Projects

As Africa continues to expand its power and telecommunications infrastructure, the integration of efficient, high-performance systems is vital to support the continent's economic growth

Nokia selected for Medusa to bring new connectivity

The groundbreaking and new subsea fiber-optic network will connect the Atlantic coast, Mediterranean Sea and the Red Sea, creating a new high
