

# **Odor from the Distribution Box**

## Overview

---

This article explains the causes & suggests cures for effluent leaks, odors, or smells at the septic distribution box. If the D-box is leaking, smells, or is tipped, clogged, or otherwise not working, this article describes how to diagnose & fix the trouble. A septic distribution box (D-box) is a concrete or plastic junction that evenly distributes wastewater from your septic tank to all drainfield lateral lines. When it fails, symptoms include uneven wet spots in the yard, slow indoor drains, and sewage odors. Clogging If you've had your septic system for a while, you have probably run into clogs from time to time.

## Odor from the Distribution Box

---

### How far should the distribution box be from the septic tank?
