Overview

* Please kindly note that the cable diameter of standard single MPO cable is 3. This series uses high-density MTP/MPO convenient installation, and stable performance. A/B/C customization, and have a variety of options such as sheath material LSZH, OFNP, OFNR, etc. 0mm, and as for cables with different bundles, the trunk diameter is different, as shown below. MPO Cable Assemblies Features

- High density, plug and play fiber optic interconnects
- Pre-terminated cable assemblies eliminate field termination time and guarantee optical performance
- Available with a wide variety of cable and connector options
- Standard and low loss connectors
- Single-mode. MPO pre-terminated fiber optic cable (Multi-fiber Push On), as an advanced cabling solution integrating high-density and multi-fiber connectivity, has developed more refined classifications to meet the requirements of different application scenarios.
