

Panel with two fiber optic ports

Overview

The 2 Ports Fiber Optic Socket Panel is a premium-quality solution designed for FTTH (Fiber to the Home) splicing and termination. Engineered for seamless integration between indoor fiber optic cables and pigtails, this socket panel is compatible with SC, LC, and FC connectors. Consolidate your fiber optic connections in industrial environments with our DIN rail patch panel, with a modular design and tool-free installation save space and simplify deployment. The FTWM2 mini wall mount fiber optic patch panel loaded with SC Duplex or SC APC Duplex fiber optic adapters provides an economical way to house the splice of optical fibers from the drop fiber optic cables with the fiber optic pigtails. This panel accommodates two fiber lines and is perfect for compact spaces due to its neat, duplex connector design.
