

Portable Cast Iron Spectrometer

Overview

Compact, handheld design delivers accurate results for metals, chemicals, and materials—ideal for fieldwork, labs, and quality control teams. When handhelds aren't enough, the amazing new SPECTROPORT portable metal analyzer applies more advanced OES technology — in a unit as easy to use as a handheld analyzer. SPECTROPORT delivers many advantages of SPECTRO's portable OES flagship, SPECTROTEST, in a smaller, lighter package. SISCO portable spectrometer is equipped with a high-definition TFT industrial touch screen, imported high-performance X-ray emitting tube and ultra-high resolution detector, combined with digital multi-channel processing technology, it can be connected to a mobile phone for wireless data. State-of-the-art, real-time spectral performance and with rugged with wireless capabilities; ASD NIR spectrometers and spectroradiometers specialize in field-portable full-range UV/Vis/NIR/SWIR (350 nm - 2500 nm) for material identification and analysis. Why Choose PURERAY Instrument?

We are committed to providing high-performing spectrometers through professional and reliable capabilities. The portable metal analyzer performs exceptionally well, especially when accurate metal analysis is required, when materials are difficult to identify, or.

Portable Cast Iron Spectrometer

Portable & Handheld Spectrophotometers , Learn More

X-Rite's high precision portable handheld spectrophotometers offer consistent and accurate color measurement on a variety of unique samples. [Learn more.](#)

Spectro Analysis and Metal Detection , Cast Steel Products

CSP's portable spectrometers allow for in-field scans of parts and equipment to provide accurate metallurgical readouts that are uploaded into our database of

Portable Spectrometer / Handheld Spectrometer

Portable Spectrometer / Handheld Spectrometer Portable spectrometers / handheld spectrometers allow researchers to analyze samples on the go. Perfect for applications like field analysis of samples,

Portable Foundry Sample Die For Spectrometer

Moulds for Iron and Non-Ferrous Metal Samples Casting of your own samples for spectrometric analysis requires different moulds, depending on alloy type and

Mobile Spektrometer für Metalle Chemikalien

Innovative Spektrometer tragen diesem Bedürfnis Rechnung. Sie ermöglichen sekundenschnelle Vor-Ort-Analysen für Metalle, Chemikalien und Gefahrstoffe. analyticon bietet passende Lösungen vom

Direct Reading Spectrometer for Aluminum Alloy, Cast

Direct Reading Spectrometer for Aluminum Alloy, Cast Iron, Copper Alloy, Find Details and Price about Metal Analyzer Spectrometer from Direct Reading

Development and application of portable, hand-held X-ray fluorescence

The James L. Waters Symposium 2012 had five invited speakers to describe the development and commercialization of portable, hand-held X-ray fluorescence (XRF) spectrometers.

Used Foundry Spectrometers For Metal Analysis , We Buy & Sell

Used Spectrometers for metal analysis of non-ferrous and ferrous alloys in die casting & foundry applications, aluminum, magnesium, zinc, copper alloys, iron

Casting Iron Spectrometers

In automotive repair and remanufacturing, technicians use portable spectrometers to verify the grade of cast iron engine blocks, brake drums, or transmission housings before machining or welding.

Casting Iron Spectrometers

Accurate casting iron spectrometers for alloy analysis. Shop our range of mobile and desktop models for reliable metal detection. Perfect for industrial use.

Mobile and Portable Metal Analyzers by SPECTRO Analytical

Discover SPECTRO's mobile and portable advanced metal analyzers, offering fast, accurate on-site elemental analysis for various industries and applications.

Metal analysis spectrometer

Find your metal analysis spectrometer easily amongst the 39 products from the leading brands (Thermo Fisher, Bruker, LECO,) on DirectIndustry, the industry

SPECTROTEST

Das mobile Bogen/Funken-Spektrometer SPECTROTEST ist für viele Anwendungen in der Metallerzeugung, der Metallverarbeitung und im Metallrecycling ideal.

AURA® handheld NIR , Versatile & portable spectrometer

AURA® handheld NIR is a portable spectrometer system, which enables measurements to be taken directly on site, suitable for a variety of applications.

Analysis of Cast Iron Using the SPECTROMAXx Metal

The SPECTROMAXx enables the accurate analysis of cast iron. The instrument takes advantage of modern CMOS/CCD technology combined with the latest

Spectro Analysis and Metal Detection , Cast Steel Products

SPECTRO ANALYSIS AND METAL DETECTION Cast Steel Products utilizes the latest in technology for analyzing metallurgy of parts using non-destructive

SPECTROTEST Mobile Spectrometer, Portable Metal Analyzer

SPECTROTEST, an arc and spark integrated spectrometer, combines many ergonomic advantages and can be safely and easily operated on site. The lightweight firing gun quickly switches between arc

Buyer's Guide: Portable Spectrometers , American

Buyer's Guide: Portable Spectrometers by Laura French Portable and handheld spectrometers bring detection and identification capabilities off of the bench and

Mobile Spektrometer für Metalle Chemikalien

Innovative Spektrometer tragen diesem Bedürfnis Rechnung. Sie ermöglichen sekundenschnelle Vor-Ort-Analysen für Metalle, Chemikalien und Gefahrstoffe. analyticon bietet passende Lösungen vom

Portable handheld spectrometers

The SciAps PowerHouse X is a portable benchtop XRF spectrometer that offers on-site elemental analysis. Its 80 kV X-ray tube allows for enhanced sensitivity and a

Metal Spectrometer , Spectrometer , Portable Metal

Two models of metal Spectrometer - Portable metal spectrometer and online metal spectrometer. Used for (PMI), metal analysis & quality testing.

Mobile Spectrometers/Mobile Metal Alloy Direct Reading

Mobile Spectrometers/Mobile metal alloy direct readings spectrometer test alloy cast iron steel for C, P, S, Fe elements 1 e LS-1899 mobile spectrometer has the

portable spectrometer , Belec

Our Belec Compact Port HLC is your reliable partner for mobile metal analysis. With its robust design and state-of-the-art technology, it delivers accurate results, whether in the laboratory or directly on

SPECTROTEST Mobile Spectrometer, Portable Metal Analyzer

SPECTROTEST is a mobile arc / spark spectrometer suitable for many applications in the metal production, processing and recycling industries. The portable metal analyzer performs exceptionally

Compact Portable Spectrometer: Fast Material Analysis Anywhere

High-performance Portable Spectrometer for on-site material analysis. Compact, handheld design delivers accurate results for metals, chemicals, and materials--ideal for fieldwork, labs, and quality
