

Price of optical cable foundation materials

Overview

Fiber-optic cable materials typically cost \$1 to \$6 per linear foot, depending on fiber count and cable type. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. Single-mode fiber costs less per foot than multimode fiber, but it requires more. In some cases, suppliers only guarantee quotations for the same day, and in extreme situations even half-day quotations are appearing in the market.
