

# **Price range of modular cable trays**

## Overview

---

Steel trays typically cost between \$10-\$30 per meter, while aluminum trays range from \$20-\$50 per meter. Why do cable tray prices fluctuate?

Raw material costs, demand, competition, and supply chain factors all impact pricing. Prices are significantly lower, reflecting bulk purchasing and direct manufacturing. Modern cable trays are engineered to provide reliable support and protection for electrical, data, and telecommunication cables while ensuring proper ventilation and accessibility for maintenance. Ask ten buyers about cable tray cost, and most of them will point to the rate per meter. Whether you need hot-dip galvanized steel, stainless steel, or halogen-free plastic systems.
