

Replacement of wiring from distribution box to meter

Overview

More than likely a permit will be required, after which the electric utility will schedule a replacement date, which will likely be made through a qualified electrician who will then be allowed to unbolt the existing meter box so the electric utility can remove the old box and. We will focus on the critical parts of the system, from basic components to step-by-step assembly procedures. Distribution Board also known as "Panel Board", "Switch & Fuse Board" or "Consumer Unit" is a box installed in the building containing protective devices, such as circuit breaker, fuses, isolator, switches, RCDs and MCBs etc. Ensuring a proper wire installation from the meter to the breaker box is crucial for several reasons.
