

Selection Parameters for Qatar Industrial Switches

Overview

In the industrial environment, the equipment runs for a long time and the working conditions are harsh, so the reliability of the switch is very high. With the continuous development of industrial automation and Internet of Things applications, Industrial Switch is an important part of the industrial network. Minicenter is the range of Distribution Boards and consumer units for final distribution, available with row or way distribution types and to be fitted with Din rail devices. Where difficult or special situations arise which are not covered or allowed for in these regulations, the services of the Qatar General Electricity & Water Corporation "KAHRAMAA" may be sought to obtain a safety course. The NIE6041SPG is a 5-port industrial full Gigabit POE switch that complies with IEEE 802.3af/at standards and supports up to 2 10/100/1000M 90W PoE ports, 2 10/100/1000M 30W PoE ports, and 1 1000M SFP slot. High anti-interference capability, 6KV surge protection, and 6KV contact / 8KV air ESD.
