

Separated Galvanized Cable Tray

Overview

Galvanized Separated Cable Tray High-voltage/low-voltage isolation: Power cables (high-voltage) and signal cables (low-voltage) can be laid separately in different compartments, completely eliminating electromagnetic interference. Strong and durable - Made of hot-dip galvanized steel or stainless steel, suitable for indoor and outdoor applications. Schiavetti Tekno, part of Spina Group, is a leading Italian manufacturer of cable trays and accessories for electrical and instrumentation systems. Since 1964, the company has supplied high-quality solutions for industrial cable management in energy, infrastructure, and plant engineering sectors. Introducing Galvanized Cable Trays: Elevate Cable Management with Enduring Strength and Precision Explore an advanced dimension of cable organization with our Galvanized Cable Trays.
