

Singapore cable tray thickness

Overview

These trays are engineered to accommodate cables of different sizes and types, including power cables, data cables, and communication cables. The cables are placed inside the trays, allowing for straightforward routing and secure fastening along the desired path, which in turn simplifies. Available in various Metallic Material such as Stainless Steel 304 / SS304, 316 / SS316, 316L / SS316L, Hot Dipped Galvanized HDG, GI Galvanized Zinc Plating, Aluminum, Epoxy Painted Coated, Aluminum and Mild Steel Material. Manufactured from premium fire-retardant resins and reinforced with fiberglass for added strength, these trays provide exceptional durability and safety for your.
