

Somali fiber optic communication manufacturer

Overview

Somali Optical Network (SOON) is privately owned Somali Company that is licensed to provide telecommunications infrastructure (Fiber optic and Wireless solutions) for high-speed transport for digital communication traffic, metropolitan networks and backbone services in Somalia. Founded in 2009 as part of the MSG Group of Companies, we are a progressive fiber optic network company providing services to the Horn of Africa. Dalkom Somalia has also made strategic investments in EIG and WACS (connecting Africa's northern and western seaboard respectively) and owns capacity. Consumer broadband powered by LTE is an affordable new wireless service that has been developed to extend the availability of broadband internet for all, especially for residential customers. We are a digital wholesale and infrastructure services company founded in 2017, and an operating company in the SOMTEL Group.
