

# **South African Household Electrical Distribution Box Configuration Standards**

## Overview

---

The SANS 10142-1:2024 standard is the cornerstone of electrical installation regulations in South Africa. This South African standard was approved by National Committee SABS/TC 067/SC 06, Electricity distribution systems and components - Installations, in accordance with procedures of the SABS Standards Division, in compliance with annex 3 of the WTO/TBT agreement. However, because of the close link between these clauses, in edition 1 of SANS 10142-1 (SANS 0142-1:2001), the design and. The SABS continuously strives to improve the quality of its products and services and would therefore be.
