

Spectrometer Copper Brush

Spectrometer Copper Brush

Electrode brush

The material insulating rubber and refiner copper alloy. The melting point of tungsten wire is high and it can maintain high hardness after being used on the electrode which is excited to generate high temperature.

Copper Test, photometric

Method: photometric 0.02 - 6.00 mg/l Cu Spectroquant[®] This Spectroquant[®] Copper Reagent Test allows the accurate quantification of the copper content in aqueous samples. Method applied: In an

QTY 5 Tungsten Wire Electrode Brush 80009001

Find many great new & used options and get the best deals for QTY 5 Tungsten Wire Electrode Brush 80009001 Spectrometer Electrode Brush at the best online

Spectrometer Electrode Brush

Engineered for precision, this high-quality electrode brush is meticulously designed to meet the stringent requirements of diverse analytical applications, ensuring consistently accurate and reliable results in
