

Swiss Project Quotation High-Density Cabinet Rack

Overview

Switzerland's grid operator Swissgrid has invited firms to bid for a three-year contract to install new server racks in its data centers. Financial-services digitalization, pharma research digitization, and Switzerland's expanding role as a European data-sovereignty hub amplify demand for high-density cabinets that pair seamlessly with liquid cooling systems. The Minkels Nexpand SR rack is a premier solution tailored for high density cabling, and thus Middle of Row (MoR) configurations in data centers, embodying innovation, flexibility, and efficiency. DUBLIN-- (BUSINESS WIRE)-- The "Switzerland Existing & Upcoming Data Center Portfolio" database has been added to ResearchAndMarkets.
