

The fiber optic cable on the router is lit up in blue

Overview

The color-coding of the lights on a router depends on the provider, but in most cases, a stable blue light indicates that you are connected to the internet. Learn what each light on your fiber equipment means—from power and fiber signal to Ethernet and phone service—and how to quickly troubleshoot issues. Those blinking lights on your modem and router actually mean something important. Most of us have experienced the frustration of Wi-Fi cutting out during an important call or while streaming our.
