

# **The industrial switch keeps restarting**

## The industrial switch keeps restarting

---

## Kuka KRC-4 Motherboard keep Restarting

---

Hi Everyone, KRC-4 Motherboard, Fujitsu D3076-K11 GS 3, Keep Restarting during booting. Video of same is attached. Below checkpoints already done. 1. RAM replaced. Same RAM

## How to fix CISCO keeps rebooting [CISCO ws-c3560g-48ps-s]

---

The switch is suddenly rebooting continuously. How to fix this? Is there any way to recover the configuration in this situation? @Cisco @theciscoguy @julienangelo3890

## Network Switch Keeps Resetting

---

We have a standalone switch that keeps resetting, knocking users off of their sessions. We've attempted a number of things to fix it, with no luck and I'm running out of ideas. Here's what

## Cisco Switch Reboot Command Safe? How Often Does a Simple Restart

---

Ever punched in that trusty reload command on a misbehaving Cisco switch ? It's networking's equivalent of "turning it off and on again" - a quick fix that usually clears weird glitches, frozen ports,

## Switch Constantly Needs Rebooted to Reset Speed

---

I've had this switch for about a year and shortly after I began using it I noticed what used to be a fully functioning 10G network would reduce to 1GB. Upon reboot, it would return to the normal

## Computer Keeps Restarting: How to Fix?

---

PC keeps restarting? Get rid of the restarting loop in just a few steps! Plus, here's how to protect your computer from occasional restarts.

## Solved: Re: MS Constantly Rebooting

---

Thought it was just the Meraki dashboard bug however device uptime indicates that the switches are rebooting for no reason. One of the MS225 switch would deny power to the client

## Cisco switch keeps rebooting randomly : r/Cisco

---

Hi, We have a Cisco switch (WS-C2960X-24TS-L) and it has rebooted maybe 3 times in the last month. I apologize but I am not a huge networking person (more of a system guy). We don't have a warranty

## **1930 switch keeps crashing / rebooting , Instant On**

---

Question about how switches reboot during an upgrade when stacked. [aruba 1960 switch] Do I need an upgrade path when upgrading firmware to 2.5.0 -> 2.8.0.17? 1930 48 port POE. User behaving as

## **Network Switch Keeps Rebooting**

---

I hate to admit, but from the switch we have 5 (yes, 5) other switches in various locations on the shop floor uplinked to the Cisco switch. When I have all 5 uplinked, I can watch the Cisco

## **Unintentional Restarting of Machinery: Hazards & Prevention -**

---

Unintentional restarting of machinery is often referred to as: anti-restart, accidental restart prevention, and low-voltage dropout. The terms 'magnetic switch' or 'magnetic starter' may refer to a device that

## **SG250-50P switch keeps rebooting : r/Cisco**

---

After a few minutes everything would come back up. I went onsite and found the switch kept rebooting. I flashed the firmware to the latest and sat there for about an hour. Everything

## **Do switches sometimes need rebooting?**

---

In your opinion, do switches sometimes need a restart? I'm asking this because today our NAS stopped working properly, and was only fixed when we restarted the switch it was attached to.

## **Cisco switch keeps rebooting randomly : r/Cisco**

---

APC upses and that vintage of single-power-supply cisco switch: We've seen a definite pattern that looks like this; especially if it is rebooting every 14 days exactly.

## **Cisco 4500 L3 switch keeps rebooting without cause.**

---

Hi Cisco community. My first post here, we have had some really weird incidents with one one of our Cisco 4500E switches. It keeps rebooting without a clear cause. The system says its

## How do I troubleshoot an industrial switch?

---

Troubleshooting an industrial switch involves a step-by-step process that includes checking physical connections, configuration settings, logs, and network performance.

## Solved: 3560cx switch that keeps rebooting

---

Solved: I have a 3560cx switch at a property (I'm not onsite) that keeps rebooting 1 or 2 times a day. When I do show version it says "Last reload reason: Power-on" Any ideas on what
