

# **Triple Play 288-core Fiber Optic Distribution Frame**

## Overview

---

● Double-sided front door, which is highly convenient to manage the fiber cable. MPO Fiber Optic Distribution Frame This high capacity fiber optic distribution frame support fiber cable fast connection and distribution; It load MTP&sol;MPO and ribbon fiber cable inside&comma; easy to use by connector plug&period; It is an ideal equipment for supporting the fiber. The optical fiber patch panel box is a high-density modular optical fiber distribution product, commonly used for fiber termination, fiber fusion splicing, fiber wiring, and fiber storage. The tray in the box adopts a downward sliding-out design, which can install adapter panels and high-density. Can I customized the products?

A: some products are customized, any specification will be accepted.
