

West Africa Fiber Ethernet Switch

West Africa Fiber Ethernet Switch

Internet Infrastructure in Africa

Internet connectivity in Africa - how did we get here? In the early 2000s landline penetration in Sub-Saharan Africa remained low compared to the rest of the

Africa Telecom Transmission Map

Africa's total inventory of terrestrial fibre optic transmission networks passed the milestone of 1 million route-kms during 2018. By June 2024 the amount of

Seacom boosts African internet growth with

100Gbps ethernet tech

Submarine cable operator Seacom has deployed 100 gigabit per second ethernet technology to bolster the growth of the internet in Africa.

ETHERNET SWITCHES

Looking for L2 Ethernet Switches or maybe a 10/100 switch that comes coupled with fibre ports? Then look no further. The Netshield 'NSW' range offers both non-manageable and web smart devices.

CSquared accelerates West Africa's digital

CSquared, a pan-African technology company committed to digitally connecting Africa through open-access, carrier-neutral broadband infrastructure,

List of terrestrial fibre optic cable projects in Africa

This is a list of terrestrial fibre optic cable projects in Africa. While submarine communications cables are used to connect countries and continents to the Internet, terrestrial fibre optic cables are used to

Paratus completes East-West Africa fiber optic route

Paratus completes construction of fiber optic line between East and West Africa. The new terrestrial fiber optic network extends from the east coast of

Fiber Optic Network Switches , Ethernet to Fiber

We offer solutions that provide seamless transmission and conversion from Ethernet

media to multimode or singlemode fiber. Our Ethernet network switches with fiber

SWITCHES - Fibre Utility Networks

Fibre Utility Networks is a fibre optic systems company providing solutions to Corporate, Mining and end users in the Telecommunications, CCTV, Access Control as well as Process and Data

Orange plans fiber backbone network in West Africa

France-based international service provider Orange has unveiled plans to construct a new fiber backbone network connecting eight countries in West Africa. The

Liquid Telecom connects East to West Africa
